Formalism and the Sources of International Law: A Theory ...

Formalism attempts to treat each work as its own distinct piece, free from its environment, era, and even author. This point of view developed in reaction to "...forms of 'extrinsic' criticism that viewed the text as either the product of social and historical forces or a document making an ethical statement" (699).

In literary theory, formalism refers to critical approaches that analyze, interpret, or evaluate the inherent features of a text. These features include not only grammar and syntax but also literary devices such as meter and tropes. The formalistic approach reduces the importance of a text's historical, biographical, and cultural context.

What does "formalism" actually mean? The phrase "formalism" does not really have its own status, it exists merely as a thought of scholars like Holmes, Pound and Frank. Legal formalism was considered as black-letter tradition because it was thought that a person solely need to consult the appropriate textual sources from law books on a particular issue in order to know what is the law.

Legal Formalism Theory Analysis - LawTeacher.net

Formalism is a branch of literary theory that became widespread at the beginning of the 20th century. It has evolved as a reaction to the traditional position on the priority of content over form. Formalists argued that the content of literature changes due to historical causes, while the forms of art have historical stability.

In art history, formalism is the study of art by analyzing and comparing form and style. Its discussion also includes the way objects are made and their purely visual or material aspects. In painting, formalism emphasizes compositional elements such as color, line, shape, texture, and other perceptual aspects rather than content, meaning, or the historical and social context.

Apart from the realist-formalist dichotomy, there is the classic debate over the appropriate sources of law between positivist and natural law schools of thought. Positivists argue that there is no connection between law and morality and the the only sources of law are rules that have been expressly enacted by a governmental entity or court of law.
